

# PRODUCT SiPM

## 01 Silicon photomultiplier

It focuses on a wide range of applications using micro light detection. Due to the high cost, limited applicability, and complex engineering requirements of PMT (Photomultiplier tube), most of the next generation products are being converted to a new alternative component SiPM (Silicon Photomultiplier), which is a solid version, and we are developing and supplying it to meet consumer demand.

## 02 SiPM is applicable to

Medical imaging equipment	Flow cells measuring instrument	Fluorescence analyzer	LiDAR
Bio-photonix	Bio-imaging system	Danger and threat detector	Aerospace field
